

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

July 17, 1981

Kimble
Division of Owens-Illinois
P.O. Box 230
Vineland, New Jersey 08360

Gentlemen:

This to acknowledge receipt of your "Confirmation of Discharge Notification Report" of an oil discharge on February 19, 1981. Your letter states that the report was intended to satisfy requirements of 40 CFR 112.4.

40 CFR 112.4 states, "Notwithstanding compliance with 112.3, whenever a facility subject to 112.3(a), (b) or (c) has: Discharged more than 1000 U.S. gallons of oil into or upon the navigable waters of the United States or adjoining shorelines in a single spill event, or discharged oil in harmful quantities, as defined in 40 CFR Part 110, into or upon the navigable waters of the United States or adjoining shorelines in two events, reportable under section 311(b)(5) of the Federal Water Pollution Control Act occurring within any twelve month period, the owner or operator of such a facility should submit his SCC Plan to EPA for review".

One spill does not require this submission. If another discharge from your facility should occur before February 18, 1981, you would be required to do so.

If you have any questions on this matter please feel free to contact us (201) 321-6670.

Sincerely yours,

Fred N. Rubel
Chief, Hazard Response Branch
